

Limited Edition Yeti Tundra 45 Seafoam Green Cooler

Limited Quantity Yeti Cooler color.

The YETI Tundra 45 is the best all-purpose cooler because of its versatile 26-can capacity and easy portability. This cooler is infused with that legendary YETI toughness — made from roto-molded polyethylene, it's UV resistant, heavily insulated and near indestructible. The durable, marine-grade nylon rope handles with textured grips let you easily haul your Tundra 45 camping cooler on short trips and quick hunting excursions. It's also great for a day on the lake due to its molded-in tie-down slots and non-slip feet, and will even stand in as a casting platform if you decide to throw a line in the water. Like all YETI
